

## **Final Task**

### **The class's Failure Wall**

*Write about your own failures and react to the failures of others.*

*Firstly, think of a time when you failed. Then, prepare two large post-its containing a description of the failure and a short description of how you finally found success and what lessons you learned.*

*At last, post them on a board and then read the other post-its. Don't forget to write a word of encouragement on the ones you can relate with!*

*- Pull your sucks and be confident -*
