Tâche

You're working for the school radio station and you have to present the film you saw during " Teens at the Cinema ". You want to persuade your listeners to go and see the film.

Remember !

You are meant to be speaking, not reading, so make sure your presentation **consists only of notes** and not fully written sentences.

Make sure you use **the appropriate vocabulary** when you present your film. When you are making a list of arguments , the rising intonation indicates the argumentation is not over, while the falling intonation indicates it is complete.

*Ladies and gentlemen !
It's about
It's not about*

*The show comes live from
We have a live audience
Sit back wherever you are and enjoy over 5 minutes of entertainment !*

Give the most interesting features of the film (the plot / the characters)

Use gap fillers : *Let me think...., I mean ...*

Do not hesitate to illustrate what you say with dialogues or music from the film.
