

LABWARE

What you have to do

Recover the file "Labware table" from Moodle or "espace d'échange classe 1er STL".

Record it on your "P" "dans mes documents du serveur personnel P".

Use chemsketch to fill in the labware table

Submit your file on Moodle

How do you use ChemSketch ?

In Word, click on "insertion" and "objet"

Then, choose "ACD/ChemSketch" and "OK"

Click on "OK" and "OK" again

In the Template Window  choose the Lab Kit tab from the Template List.

Select the labware by clicking on it. Click on the workspace to place the selected template. Then right-click to hide the template shadow.

When, you have finished, close Chemskeck, your draw is in Word
