Descriptif :

Every two years, the Bernard Palissy general and vocational high school in Saintes organizes "the Nuit au Lycée" event, which is open to visitors, whether from high school or not.

This is a **night** during which **students and teachers present together their transdisciplinary projects carried out throughout the school year.**

► For each edition, the event has a particular theme. In 2023, it was **the theme "Amours et Luttes"**.

► **PAPS students** actively participated in this event. First of all, you should know that **PAPS means in French "Pôle d'Accompagnement de la Persévérance Scolaire"**.

This system aims to **welcome students over 16 who have been out of school for less than a year** and who are **experiencing great difficulties integrating into traditional structures.**

► For the 2023 edition, **the PAPS group** was made up of **students from very different cultures** because they were **French, Ukrainian, Armenian, Turkish and Libyan.**

► All these students were able to **create this project** by **bringing together three skills : their practice of French and English, and their skills in applied and digital arts.**

This project took place in three stages.

- First, the students **transformed the lyrics of the song "Imagine" by John Lennon to write new ones in English** based on their own lives, their suffering, their joys, their feelings and their vision of society.
- Secondly, they **recorded their text to music**, and the Armenian student agreed to accompany them on the guitar.
- Thirdly, they **created a slideshow in English** on Canva **illustrating the meaning of their lyrics**, and therefore called upon their artistic and graphic skills.

► During **"the Night at the High School"** event, this **musical slideshow** was presented and **video projected for the**

spectators.

From the creation to the implementation of this project, we were pleased to see **the cohesion of this group made up of young people with different cultures and languages.**

We realized that their **written productions revealed hidden suffering** and **the words made it possible to verbalize** emotions and feelings.
